SUMMARY

Results-driven Frontend Developer with 2+ years of experience building scalable, responsive web applications. Expert in Angular 8+, TypeScript, and WordPress development — from Figma prototype to production deployment. Proven ability to integrate REST APIs, manage cloud hosting infrastructure, and deliver SEO-optimized, cross-browser-compatible solutions. ServiceNow Certified System Administrator in ITSM platforms.

EXPERIENCE

Frontend Developer · SBaseTechnologies

Sep 2023 – Present

- Developed and maintained responsive Angular 8+ / TypeScript web applications, ensuring cross-browser compatibility and mobile-first performance across all target environments.
- Integrated RESTful APIs with backend engineering teams, debugging data pipelines and resolving production incidents to improve application reliability.
- Owned Git version control practices — feature branching, pull request reviews, merge conflict resolution, and coordinating releases across staging and production.
- Transformed Figma design prototypes into fully functional WordPress sites using Elementor and Astra theme, delivering SEO-optimized, performance-tuned solutions meeting all client requirements.
- Configured end-to-end hosting infrastructure: AWS LightSail, GoDaddy, A2 Hosting, Route53 DNS, cPanel email setup, and daily automated snapshot backups.

KEY PROJECTS

Synergy HR Portal · Angular · TypeScript

Dec 2024 – Present

- Built a secure, enterprise-grade HR portal with role-based access control for admins and employees, managing payroll, insurance, and employee lifecycle records.
- Implemented Angular RBAC architecture and REST API integration, reducing unauthorized access incidents and improving data accuracy across departments.
- Optimized TypeScript component performance, achieving faster load times and a measurably improved user experience.

WordPress Web Platform · Elementor · Astra · SEO

Sep 2023 – Present

- Converted Figma prototypes into pixel-perfect, cross-device responsive WordPress websites with zero layout breakage on any screen size.
- Integrated plugins, customized themes, and implemented on-page SEO strategies improving client site organic visibility.
- Set up domain, hosting, DNS routing, and cPanel email environments; established daily snapshot routines for business continuity.

CORE SKILLS

Frontend	Angular 8+, TypeScript, JavaScript (ES6+), HTML5, CSS3
WordPress	Elementor, Astra Theme, Plugin Integration, Multisite Setup, PHP, MySQL, Basic SEO
Hosting & Cloud	AWS LightSail, Route53, GoDaddy, A2 Hosting, cPanel, Domain & Email Configuration
Dev Tools	Git, GitHub, VS Code, REST APIs
ServiceNow	System Administration, Incident & Problem Modules, ACLs, Forms

E D U C A T I O N

B.Tech – Electronics & Communication Engineering

Mar 2020 – May 2023

Mahatma Gandhi University GPA: **7.98 / 10**
